

Community Investment

Osum's community investment will focus on helping children and youth develop into extraordinary people.

We will enrich the communities where our employees and their families live and work, building capacity for long term positive impact.

Although we will consider any project or group with good intentions and big ideas, we are passionate about investing in the following four areas:

- Science and Technology
- The Environment
- Vibrant Communities
- Sport

There are just a few guidelines we would like you to consider before you contact us:

1. We support areas in which there is a demonstrated need - no duplication of services.
2. We support registered charities or not-for-profits.
3. We support initiatives serving an Osum community.
4. We support long term initiatives that have a positive impact over time.
5. As a rule, we do not support religious, political, or other potentially divisive initiatives.
6. Initiatives we support should demonstrate an exit strategy from the outset.
7. It may take up to three months to process and consider your request.

The next step:

Send us a short proposal (2 pages maximum). You'll win points if you can demonstrate big ideas and commitment to building capacity in the lives of children and youth.

Your proposal should include:

- your contact info
- a description of the project, objectives and who will benefit
- total funding needed, funding requested from Osum, other sources of funding and an exit strategy
- reasons or ideas that would make this an appropriate funding choice for Osum

Send proposals to:

Community Investment Osum Oil Sands Corp 300, 1204 Kensington Road N.W. Calgary, Alberta, Canada. T2N 3P5
